NEW TOWN CHAPEL

The extraordinary New Town Chapel, with 120' towers bellowing into the open sky, has been a planned key civic building in New Town since conception and what an impressive site it is.

Great architectural thought and detail was given to the New Town Chapel. The inspiration: simplistic traditional chapels of the early 20th century. With its 30' ceilings, stucco exterior and great attention to fine details, this chapel will be an iconic image and architectural wonder for many to admire for decades to come. It's truly built to withstand the test of time.
